

## ADVANCE MACHINING SERVICES INC.

AMS provides machined components to the Global Oil and Gas, Industrial Automation, Automotive and Transportation Industries. We are known for taking on projects that require innovative thinking and that stretch the limits of conventional manufacturing processes.

AMS consists of individuals always looking to further excel in their chosen field, no matter what their current level of knowledge and experience. In short, we seek to employ the best...and we do.

In September of 2001, Darryl Dufresne and Normand Marcoux purchased the assets of a small machine shop and immediately implemented a new strategic plan of CNC machining. The new venture was named "Advanced Machining Services, Inc."

What started out as two man / one customer machine shop in 2001 has grown to over 20 experienced machinists operating in a state of the art, climate controlled 17,000 square foot facility.

### AMS Operating Structure

- Multiple shifts as well as weekend production allow us to meet the shorter lead time and manufacturing flexibility required to compete in today's global market.
- An "Empowered Team" structure set up to maximize customer satisfaction and Manufacturing efficiency.
- Extensive experience in manufacturing from hard prints or electronic files.
- Proficient in the machining of all alloys, including 718 Inconel, Monel, Hastelloy,...
- Manufacturing cells are set up to allow efficient transfer of parts thru their required processes.
- Quality system embracing ISO 9001:2000 and Lean Manufacturing concepts.

### Our Services

**CNC Turning** • **CNC Milling** • **Gundrilling** • **Surface Grinding**  
**OD/ID Grinding** • **Wire EDM** • **Die-sink EDM**

**3232 Electricity Drive, Windsor, Ontario, N8W 5J1 Canada**

**Tel. (519) 944-3433 • Fax. (519) 974-6266**
